If results matter, Widescope delivers.

Cyber Security & Professional Services to Corporate and Government Clients.

No matter the project size or complexity,
Widescope consistently delivers top-quality
solutions on-time and on-budget.

Widescope Consulting and Contracting Services, LLC is a management and technology consulting company providing cyber security, information technology, and professional service solutions to corporate and government clients. Clients nationwide trust us to deliver comprehensive solutions and highly qualified resources that not only focus on you and the successful delivery of your solution, but also on the security of its use . Teaming agreements with long-standing proven partners provide additional past performance in key deliverables and critical business functions.

What differentiates Widescope from other general corporate and government contractors is that we bring fast, reliable, immediately productive, experienced resources from multiple disciplines to reduce risk and ensure your satisfaction. Utilizing customer focused demand management processes, we continuously prepare and develop top-tier talent to meet your specific needs. Our success is rooted in bringing together strong expertise, deep industry knowledge, and proven insight into our client's operations and systems.
